

Art 1.1

The ART 1.1 is literally one on one. A single amplifier for a single zone and for a single source. It is up to you to select the zone.

We selected the source: Bluetooth. This little gem produces an amazingly large sound. Linked to your inwall speaker, this perfect combination will provide any small space (e.g. toilet, kitchen, office) with more than enough sound. In no time at all, you can create a connection for wirelessly streaming the playlist of your dreams. Say goodbye to the hassle of WiFi or logging in. It couldn't be simpler. Plus, it can be installed wherever you want. You won't even need to see it: thanks to its compact dimensions it can be discreetly tucked away. You understand. A pure approach for a pure sound, with the tried-and-tested ArtSound seal of quality® that you know.
