

AS150

An exceptional design in a high-quality cabinet. In combination with the fibreglass woofer in a wooden frame, the special tweeter is absolutely unique. The warm colour is a dead giveaway for the sound: deep basses and high-quality mid-range, enhanced by a strong wave of high tones. Perfect for every modern interior. The AS150 produces up to 100W without any distortion.

The AS150 doesn't need a lot of space to fill a room with sound. It can also serve as a component in a true home cinema set.

COLOURS yellow / red / black / wengé

TECHNICAL SPECIFICATIONS
